

[2008/1/24 Green Energy list on mainboard on Jan. 25, 2008](#)

Please be informed that Green Energy Technology (GET, 3519TT), Tatung group (2371TT) subsidiary in solar industry, is going to be listed on TSEC mainboard on Jan. 25, 2008. (Friday)

We would like to thank you for your continued support to Green Energy and Tatung that GET can go IPO on mainboard during this fluctuating stock market situation. We would also like to reiterate Green Energy business plan is on going as scheduled:

- + **Q4, 2007**
  - \* **Monthly shipment reached more than 3.1 million wafers**
  - \* **GET capacity reaches 1000 ingots per month with 80 furnaces on site in December.**
- + **2008**
  - \* **Annual capacity will reach 200MW with over 3,000 tons of multi-crystalline ingots output.**
  - \* **Planning to increase 35% of furnace throughput by enlarging crucible output from 270kg/ ingot to 450 kg/ingot when technology is ready .**
  - \* **Thinner wafer and advanced silicon recycling technology as the key improvements for this year.**
  - \* **To launch thin film business by end of 2008 starting from 30MW annual capacity.**
- + **2009**
  - \* **Target to reach market share 10% in worldwide multi-crystalline solar wafer industry.**

Again, thank you for your kind support to Green Energy and Tatung as always.
