

2008/3/24 Green Energy signs US\$ 260 million agreements with DC Chemical

Thank you for your attentions to Green Energy Technology (GET, 3519 TT). Please be informed that Green Energy has signed agreements with Korean polysilicon supplier DC Chemical.

The two agreements will cover the supply of US\$ 260 million worth of polysilicon from DC Chemical to Green Energy from 2008 to 2016.

We are planning to build more long-term integrating supply chain with global polysilicon suppliers and clients to grow steadily with the solar industry.

Kindly be informed that Green Energy is keeping ramping 200MW annual capacity in silicon crystalline wafer business while developing G8.5 thin-film solar cell business in Q4, 2008 as schedule.
