

Green Energy Technology got 8-year order worth of US\$ 947 M

Thank you for your attentions to Green Energy Technology (GET, 3519 TT). Please be informed Green Energy have got orders worth of US\$ 947 million (around NT\$ 29 billion) to supply solar wafers.

The 8-year contracts cover a period between 2009 and 2016 to Asia and Australia customers. We are planning to expand the solar business in aggressive and substantial way. To secure our long term profits by building solid partnership with global customers and suppliers is one of our key strategies to reach the development targets.

For your information, GET G8.5 thin film business is now in stage of testing production equipments from Applied Material. The schedule to go mass production by end of this December remains the same.

Again, thank you for your support as always.
