

**GET(3519TT) reported Feb. 2010 sales NT\$1,038 M**  
**With monthly shipment YoY 4-time increase**

Dear Investors and Analysts:

Please be informed Green Energy Technology (3519TT) announced its net sales for February 2010:

Sales were NT\$ 1,038 million, a MoM decrease of 2% and YoY increase of 93%:

**Green Energy Sales Report:**

(Unit: NT\$ thousand)

Net Sales	2010 (non-audited)	MoM	2009	YoY
Feb.	1,038,376	-2.0%	537,986	+93.01%
Jan. through Feb.	2,097,940		1,128,771	+85.86%

The slight MoM decrease is resulted from fewer days in February than in January, for averaged daily shipment in February is more than January. GET production has been fully utilized from 3<sup>rd</sup> quarter last year, while the monthly shipment has reached four-time level comparing to the same period last year.

Since GET wafer capacity is too tight to fulfill increasing customers' demands, GET is now raising wafer ASP and expanding capacity as schedule to 500MW in 2<sup>nd</sup> quarter 2010. We are monitoring market very closely to see if further capacity expansion needs to be planned and ready by end of 2<sup>nd</sup> quarter. We will report to investors shall there's any further.

Thank you for your attention.
