

Green Energy Technology (GET 3519TT) announced 5-year US\$ 223 million polysilicon agreement with Korea poly-supplier OCI

Dear investors and analysts:

Please be informed GET (GET, 3519 TT) has signed 5-year agreement with Korean polysilicon supplier OCI Company Ltd.

The agreement signed will cover supply of US\$ 223 million worth of polysilicon from OCI Company Ltd to Green Energy Technology from 2011 to 2015. (The unit price shall be subject to adjustment in accordance with several solar market related indices.)

We are strengthening long-term integrating supply chain with global polysilicon suppliers and clients. Along with ramping demand from global brand-name customers, GET is expanding capacity and securing feedstock accordingly to strongly support long-term partnership and grow steadily with global industry.

Kindly be informed GET's plan to ramp wafer capacity to 1GW by end of 2010 is on schedule.

Again, thank you for your support to us.
