

GET(3519TT) reported July 2014 consolidated sales

Dear Investors and Analysts:

Please be informed Green Energy Technology (3519TT) announced its consolidated net sales for July of 2014:

Sales for July of 2014 were NT\$ 1,221 million, increase by 10.9% MoM and increase by 9.6% from the same period of 2013.

Green Energy – Consolidated Sales Report:

(Unit: NT\$ thousand)

Net Sales (Unit: NT\$ thousand)	2014 (non-audited)	MoM (non-audited)	2013	YoY
July	1,221,077	10.9%	1,114,243	9.6%
Jan. through July	8,449,676		6,881,250	22.8%

GET capacity utilization was 95%, while GET kept managing OEM & OBM businesses along with global customers distribution. To well prepare for potential industry volatility, GET plans to further increase OEM businesses for global brand-name customers.

The DOC of United States has announced in July its preliminary determinations in the antidumping duty investigations of imports of certain solar crystalline products from China and Taiwan. GET was not included in the Taiwan investigation for antidumping duty, and according to the fact sheet announced, GET is not included in the producers/exporters in Taiwan which received preliminary dumping margin. It is expected ASPs of whole supply-chain products may be squeezed in short term, while in long term the impact to GET shall be insignificant.

In response to possible industry volatility, GET plans to further focus on international high-end business. GET will cooperate with global high-level supply chain to expand high-end market share. Furthermore, GET is evaluating to set up oversea factory or downstream production line, with solid support of Tatung Group's global production network, to get closer to end market and increase cooperation with global customers.

(GET monthly revenues for reference)
