* Based on 375,074 thousand weighted average outstanding shares

** Based on 324,805 thousand weighted average outstanding shares

Due to ASP for high-efficient wafer in 2Q14 went lower, GET operating result in 2Q14 was loss. With current stable ASP and further cost reduction, GET expects to keep capacity utilization over 90% with OEM business and high-end market share increasing.

GET expects solar demand will increase in 2H14 and global installation will keep growing for years, though with trading issues happen. With well-known high-end technology, GET plans to integrate into downstream with module subsidiary Gintung, supporting by strategic partners and Tatung Group, to pursue further high efficient market and stable profits in the near future.
