

GET(3519TT) reported Feb. 2016 consolidated sales

Green Energy Technology (3519TT) announced its consolidated net sales for February of 2016:

Sales for February of 2016 were NT\$ 1,767 million, increased by 2.8% MoM and increased by 42.4% from the same period of 2015.

Green Energy – Consolidated Sales Report:

(Unit: NT\$ thousand)

| Net Sales (Unit: NT\$ thousand) | 2016 (non-audited) | MoM (non-audited) | 2015 | YoY |
|------------------------------------|-----------------------|----------------------|-----------|-------|
| February | 1,767,751 | 2.8% | 1,241,475 | 42.4% |
| Jan. through Feb. | 3,488,131 | | 2,779,481 | 25.5% |

Along with increasing wafer price and over-booked orders from customers, GET capacity utilization kept more than 95% in February though with less working days.

Global information company IHS forecasted cumulative global PV installations will surpass 310 GW by end of 2016, while China, U.S., Japan, Germany and Italy will account for 70 percent of the installations. The supply chain could benefit from a period of relatively stable pricing, following with a new wave of capacity expansion.

GET expects current wafer shortage will support high-end wafer price to be relatively stable. GET will search for proper outsourcing capacity to expand GET's manageable capacity, and cooperate with Tatung Group and subsidiary Gintung to catch up down stream business in module and system, so as to create stable profitability.

(GET monthly revenues for reference)
