

GET(3519TT) reported December 2016 consolidated sales

Green Energy Technology (3519TT) announced its consolidated net sales for December of 2016:

GET sales for December of 2016 were NT\$ 758 million, decreased by 23.4% MoM and decreased by 50% comparing to the same period of 2015.

Green Energy – Consolidated Sales Report:

(Unit: NT\$ thousand)

Net Sales (Unit: NT\$ thousand)	2016 (non-audited)	MoM (non-audited)	2015	YoY
December	758,571	-23.4%	1,531,347	-50%
Jan. through Dec.	15,309,775		15,505,727	-1%

Wafer ASP decreased by small amount in December. The major reason for revenue decrease is, to keep operating profits, GET managed to reduce outsourcing wafer capacity from third-party, and screen orders to serve mainly long-term partners and leading emerging customers with solid financial positions. GET's in-house capacity utilization is over 90%.

Along with potential changing solar markets, trade barriers and financial uncertainties in 2017, GET plans to grow by advancing aggressively new generation high-efficient wafer, and extending downstream module business with subsidiary Gintung, to pursue more profits.

(GET monthly revenues for reference) (Unit: NT\$ thousand)

2015 (Consolidated 合併)		Amount
January	1 月	1,538,006
