Green Energy – Consolidated Sales Report:

Net Sales (Unit: NT\$ thousand)	2017 (non-audited)	MoM (non-audited)	2016	YoY
June	821,977	-9.4%	1,273,032	-35%
Jan. through Jun.	5,208,944		10,050,648	-48%

Wafer price was raised slightly in June, while GET prioritized profits to increase OEM and brick businesses in niche markets. GET in-house capacity utilization kept 90% in June.

Solar ASP rises due to the expectations of China to extend annual FIT policy to end of September, and U.S. to strengthen possible trade barrier at end of 3rd quarter. To well prepare for policy uncertainties, GET has modified strategies to focus more on brick business for niche market, and wafer business mainly for long term customers. GET at the same time will explore more opportunities in light-weight and high-efficient modules globally, to pursue potential profits.
