

GET(3519TT) reported August 2017 consolidated sales

Green Energy Technology (3519TT) announced its consolidated net sales for August of 2017:

GET sales for August of 2017 were NT\$ 1,118 million, increased by 21.5% MoM and increased by 73% comparing to the same period of 2016.

Green Energy – Consolidated Sales Report:

Net Sales (Unit: NT\$ thousand)	2017 (non-audited)	MoM (non-audited)	2016	YoY
August	1,118,460	21.5%	645,157	73%
Jan. through Aug.	7,248,271		11,904,019	-39%

Along with wafer price increased in August, GET prioritized margins with product mix of bricks and wafers to serve long term partners. GET in-house capacity utilization kept more than 90%.

Wafer ASP raises for U.S. could strengthen its trade protection policy to solar module, and solar is increasingly demanded by emerging countries. At the same time, China new solar interconnection estimated to exceed 35GW through July in 2017, and projects of photovoltaic leader and aid-the-poor plan are expected to support China demands in 2H17.

Despite the policy uncertainty, GET will adjust product mix of both brick and wafer to catch the best margins, and explore global customers with new high-end light weight modules to pursue business profits.

(GET monthly revenues for reference) (Unit: NT\$ thousand)

2015 (Consolidated 合併)	Amount
January 1 月	1,538,006
