

## **GET (3519TT) held 2017 extraordinary general meeting (EGM)**

GET (3519TT) today (Sep. 26, 2017) held the Company's 2017 extraordinary general meeting (EGM), in which the proposed resolution was approved, as below:

Proposal of potential subscribers for GET private placement

- I. GET private placement plan has been approved by AGM on June 16, 2017 to raise funds by
  - A. Issuance of no more than 80 million new common shares
  - B. Or issuance of no more than 13,000 convertible bonds (Par Value per CB: NT\$100,000), total amount no more than NT\$ 1.3 billion.
  - C. Use of proceeds: to strengthen financial structure for working capital and long-term operation
  - D. The funds shall be raised within one year starting from AGM approval date (2017/06/16), with one or up to two private placements.

II. Potential Subscribers:

As a Tatung Group company, GET's private placement could be subscribed by TATUNG Co., Ltd (2371TT) to show the Group's confidence and support to GET.

GET high end diamond-wired wafer has reached efficiency of 18.9% the average, and 19.9% the highest with PERC. The new light weight modules are setting in Taiwan at Water Resources Bureau, Changhua Department of Legal Affairs, and Shimen Reservoir with solar rooftop and solar sidewalk through vertical integration with Tatung Group.
