GET screened orders strictly in June to reduce impacts from varying policy. ASP of supply chain kept declining in June, but sign of stabilization for coming quarter is showing gradually.

In response to the volatility of international policy and unclear industry, GET to ensure employees' working rights and retain GET talent teams, has been coordinating with Group Company and module subsidiary to perform off-season production planning.

At the same time, GET works with long-term customers to further advance high efficient technology, so as to raise production utilization and catch high end business as soon as supply chain pricing & demands stabilized.
