Green Energy – Consolidated Sales Report:

(Unit: NT\$ thousand)

Net Sales (Unit: NT\$ thousand)	2018 (non-audited)	MoM (non-audited)	2017	YoY
July	502,878	104.5%	920,866	-45.4%
Jan. through July	4,847,661		6,129,810	-20.9%

ASP of multi-crystalline wafer was stabilized in July and demand was increasing, showing policy impacts had been reduced. To prioritize cash level and eliminate risk of account receivable, GET screened orders strictly in July to ship only long-term and financially sound customers.

Along with that, GET has accelerated the development of new product technologies such as black silicon wafer and thinner slicing line. GET plans to integrate with subsidiary module supported by Tatung Group solar system business, to expand high-end customer base when the global demand is ready to go.

Thank you for your attention.
